# HOW TO PLAY

## **PLAYER SELECTION**

Description of how many players can play this game and of how the number of players is selected in the game menu.

## **OPTION SELECTION**

Description of the available game options and of how these options are selected in the game menu.

## **GAME PLAY**

Detailed description of what the game is about and of how the game is played.

## **WHATEVER ELSE IS IMPORTANT**

Description of whatever else is important in the game. Scores, lives, bonus points, etc.

## SCORING

Points are awarded for achieving the following:

You will earn extra points for...

## HIGH SCORE MEMORY

As long as your machine is on, with the game cartridge in place, the highest score is retained. To see this score, press the Reset button. When the machine is turned off and the cartridge removed, the score is lost.

## RESTARTING THE GAME

To restart a completed game with the same number of players and the same game option, press any of the four buttons once the game is over. If you wish to restart the game before it is completed, or change the number of players or the game option, press the Reset button.

# SETTING UP

# CREDITS

This game was developed by **Firstname Lastname** and programmed in C and MC6809 assembly language. It is the outcome of a student project which was part of the elective course "Advanced hardware-oriented C and Assembly Language Programming" at Pforzheim University, Germany, in spring term 2025, supervised and tutored by Prof. Dr. rer. nat. Peer Johannsen.
